PROFESSIONAL SUMMARY

I'm a software developer and IT professional with hands-on experience in mobile and web development, QA/testing, and backend integration. I've worked with technologies such as Flutter, Dart, React, React Native, Vue.js, Node.js, PHP, Python, MySQL, Firebase, and RESTful APIs. I enjoy turning ideas into practical digital solutions, improving existing systems, and building applications that are useful to the people who use them.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React, Vue.js, Tailwind CSS, responsive web development

Mobile: Flutter, Dart, React Native, Expo

Backend & Data: Node.js, PHP, Python, MySQL, REST APIs, Firebase

Design: Figma, wireframing, prototyping, design systems

Tools & Workflow: Git, GitHub, VS Code, debugging, functional testing, UI testing

PROFESSIONAL EXPERIENCE

Xurpas — Bench Developer / Intern | [2025-2026]

- Explored and reviewed features of a React Native application.
- Assisted with investigating login-related issues and application behavior.
- Worked with Firebase Crashlytics for crash monitoring and issue investigation.
- Worked with Firebase Remote Config for application configuration.
- Collaborated with the development team while gaining practical experience in mobile application development.

SELECTED PORTFOLIO PROJECTS

Attendly | Developer | Flutter, Dart, Fruitask

- Developed a QR Code Attendance Tracker concept for student attendance management.
- Worked with Flutter and Dart in the development of a mobile attendance application.
- Used unique QR codes for class-based attendance tracking.

Uptura-Tech | Developer | React, Node.js, Fruitask

- Contributed to a technology platform focused on delivering digital solutions for modern businesses.
- Worked within a React and Node.js technology stack.
- Portfolio project categorized under development and developer responsibilities.

Fruitask | QA / Tester | Vue.js, Node.js, MongoDB

- Performed QA/testing work for a productivity and task management platform.
- Worked with a Vue.js, Node.js, and MongoDB technology stack.
- Focused on reviewing application behavior and identifying issues during testing.

Virtual Office | QA / Tester | Vue.js, Node.js, MongoDB

- Performed QA/testing work for a virtual office application designed to support remote team collaboration.
- Worked with a Vue.js, Node.js, and MongoDB technology stack.
- Supported application quality review through testing and issue investigation.

EDUCATION

PHINMA Saint Jude College | 2023–2027

Bachelor of Science in Information Technology

Dimasalang, Sampaloc Manila
